The EMERCOM of Russia discussed the readiness of Mordovia for the flood-prone period

On March 12, in Moscow, the Minister of Emergency Situations of Russia Yevgeny Zinichev held a working meeting with the Acting Head of the Republic of Mordovia Artem Zdunov and the Chairman of the Committee of the State Duma of the Federal Assembly of the Russian Federation for Security and Anti-Corruption Vasily Piskarev.

The Minister and the Acting Head of the region discussed issues of interaction to ensure fire safety and prevent emergencies on the territory of the subject, as well as to strengthen the material and technical base to reduce the response time to incidents. Currently, the regional authorities are considering the issue of building fire stations.

Artem Zdunov informed E. Zinichev about the preparation of the forces and means of the territorial subsystem of the Unified State System of Prevention and Elimination of Emergency Situations for the flood-prone period. In the Republic, about 3 thousand people are in readiness to respond as intended.

The new Crisis Management Center of the Main Directorate of the EMERCOM of Russia in the Republic of Mordovia will provide effective interaction between the units. Its opening is scheduled for April this year. A building with an area of more than 3.2 thousand square meters. meters will allow accommodating all employees on duty shifts, which will significantly affect the efficiency of processing incoming information about emergencies.

During the meeting, plans were also discussed for the reconstruction of the regional automated system for centralized notification of the population.

In addition, Artem Zdunov thanked Evgeniy Zinichev for supporting the region in the part of the state program "Protection of the People and Territories from Emergencies, Ensuring Fire Safety and Safety of People at Water Bodies."

In turn, Vasily Piskarev informed about the work of the relevant State Duma Committee on improving legislation in the field of the EMERCOM of Russia. In 2020 alone, the State Duma adopted 5 federal laws, in particular, on improving activities to extinguish landscape and forest fires, responsibility for violating fire safety standards, increasing the status of NTSUKS, introducing a single emergency number 112. He also noted the high degree of interaction between the State Duma Committee on Security and Anti-Corruption and the Russian Emergencies Ministry.
