**In Ingushetia, EMERCOM employees organized hot meals for truck drivers  
stuck on a federal highway**

Due to the worsening weather conditions on the territory of Georgia and the impossibility of ensuring the safe passage of vehicles, traffic for heavy vehicles is prohibited on the Vladikavkaz-Lars section in the direction of leaving the Russian Federation from March 16, 2021 until further notice.

Due to the restrictions imposed, in the Republic of Ingushetia along the federal highway there is a significant influx of heavy vehicles, the number of which has exceeded more than 470 units.

The staff of the EMERCOM Main Office for the Republic of Ingushetia deployed a field kitchen on the spot. By the forces of the emergency department, together with local authorities, temporary food points have been organized for drivers. Caring residents and volunteers are also helping. The drivers were fed meat cooked on the spot in large boilers, they brought Ingush cakes with cottage cheese, drinking water, hot tea, food, sweets, vegetables and fruits.

In addition, traffic police officers are on duty along the federal highway, the crew of the disaster medicine center is posted to respond to possible accidents. The press service of the emergency department is informing drivers about the situation on the Georgian Military Highway.
